Wabweni Brian

FRONTEND DEVELOPER | UI/UX DESIGNER

ABOUT

I'm a passionate and detail-oriented Frontend Developer with expertise in UI/UX design, responsive web development, and JavaScript frameworks. I'm skilled in creating visually stunning and user-friendly interfaces. Besides that i have the following special qualities that i like about myself 😎

- **Highly organized and maintainable code:** When it comes to writing highly maintainable code, I'm among the best.
- **Persistence to problem solving:** I can literally spend hours, even days fixing a single bug until it's fixed.
- **Detail-oriented:** I love detailed work and whatever i design, i try to bring it to perfection considering every pixel inch
- **Keen eye for good design:** I spend countless hours making sure the design looks really aesthetic.
